

20th EVGA Meeting, Bonn (Germany), 29-30 March 2011

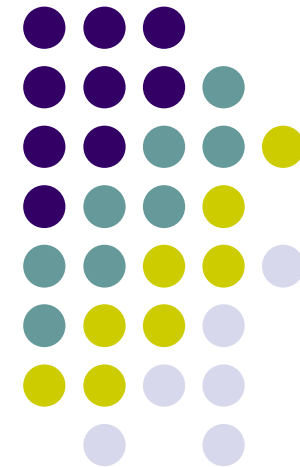

Max-Planck-Institut
für
Radioastronomie

IVS Live : All IVS on your desktop

<http://ivslive.obs.u-bordeaux1.fr/>

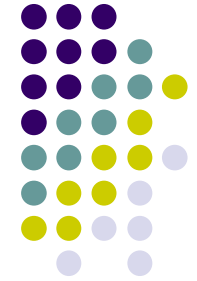

Arnaud COLLILOUD

Laboratoire d'Astrophysique de Bordeaux (France)

IVS Live main capabilities

- **Follow IVS sessions in real time**

Which session is currently running ?

Which sources are currently being observed ?

- **Navigate through IVS sessions and master schedules**

Which sessions are taking place in the next few days ?

- **Searching for specific information about sessions, sources or stations**

When did the Effelsberg radiotelescope observe during the past months ?

DEMO

Now, explore it yourself...

Thank you!

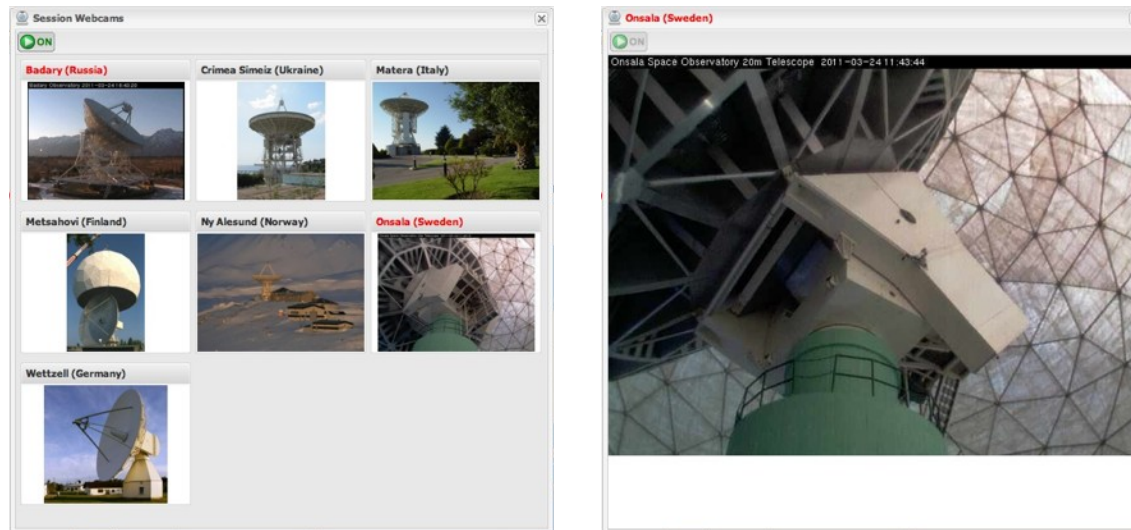

Some figures...

<u>Visitors</u> :	<u>Data</u> :
<i>(since 1 November 2010)</i>	<i>(25 March 2011)</i>
671 visits	659 sessions
198 unique visitors	709 sources
26 countries	46 stations
22 languages	

Future improvements

- Webcams management *(available in beta version)*

- Global Network display
- Dynamic station information
- Remote control integration

(pay attention to talks from Martin Ettl and Alexander Neidhardt)
